

Carl J. Strang, III
The 6/10 Corporation

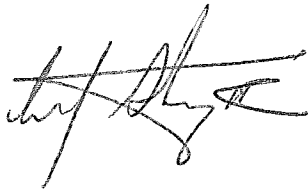

To Whom It May Concern:

The 6/10 Corporation is a Winter Haven, Florida based investment company. Its primary holdings are Florida commercial real estate properties and private equity positions in Florida based operating companies. The 6/10 Corporation's commercial real estate portfolio includes office, medical, data center, industrial, specialty retail and undeveloped land. Operating companies included in the 6/10 Private Equity portfolio include software, commercial real estate services, renewable energy, colocation and data center, manufacturing and IT services.

We have engaged Jim Grebey and Diligent Inc. on a number of engagements on the private equity investment side of the business. The first engagement was the acquisition and integration of a new software division for one of 6/10's portfolio companies. The analysis, structure and organization provided by Jim Grebey and his team contributed in a significant manner to the successful integration, growth and subsequent sale of the division at a very attractive multiple.

Another engagement involved the start-up of a new company in the renewable energy field. Although a start-up is in many ways very different from the acquisition of an existing business the opportunity and risk analysis is very similar. The analysis provided by Jim and his team was helpful to 6/10 and the other stockholders.

In addition to the above, 6/10 has utilized Grebey/Diligent on a number of engagements more limited in scope. These projects ranged from a SAS 70 certification project to a sole source qualification effort with a major healthcare industry group. Jim and his team brought the same diligence, critical analysis and presentation skills to these projects as they did to the larger engagements. As with the other projects, the stakeholders were pleased with the work product and I am confident that 6/10 will continue to call upon Jim Grebey and Diligent for future engagements.

A handwritten signature in black ink, appearing to read 'Carl J. Strang, III', written in a cursive style.
